YOUNG PEOPLE'S

HEALTH AND
RIGHTS**

Today's generation of young people is the largest the world has ever known, yet young people rarely have a seat at the decision-making table. As a result, policies, programmes, and services targeting young people's sexual and reproductive health and rights often fail to reflect their realities and diverse needs.

Right Here Right Now (RHRN) is a five-year programme, with a global strategic partnership that is active in ten countries across Africa, Asia, and Latin America, including the Caribbean sub region.

Our partnership envisions a world where all young people are able to access quality and youth-friendly health services, and are not afraid to openly express who they are and who they love. We believe that young people everywhere have the inalienable right to make their own choices, and lead happy and healthy lives.

CHOICE FOR
YOUTH &
SEXUALITY

We harness the catalytic power of inclusive and diverse partnerships; youth leadership and capacity strengthening; and multi-level advocacy to help realise a policy environment that is responsive to young people's realities.

YOUTH LEADERSHIP AND CAPACITY STRENGTHENING

Young people are in the lead throughout the partnership as they determine their own advocacy priorities. By investing in young people, we are empowering a generation of young leaders to advocate for their own rights, and articulate their demands for a better world.

INCLUSIVE AND DIVERSE PARTNERSHIPS

Right Here Right Now is a global strategic partnership of nearly 163 organisations. Within the partnership, we are constantly working to be better; by seeking out linkages, and striving to be more inclusive advocates of sexual and reproductive health and rights for young people. Across RHRN's 11 advocacy platforms, we join up advocates who represent diverse expertise: youth rights, human rights, diverse sexual orientations and gender identities, HIV, health, education, women's empowerment and gender equality.

MULTI-LEVEL ADVOCACY

Right Here Right Now engages in (sub-) national, regional and international advocacy to rally support for comprehensive sexuality education; youth-friendly health services, including safe and legal abortion; and meaningful youth participation. We make use of regional and international human rights instruments to hold our governments accountable for their commitments to young people's sexual and reproductive health and rights.
